Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1225740

Description of problem:
The existing list of products not listed under repo discovery to create repository within existing product. In short the existing product list is empty.

Version-Release number of selected component (if applicable):
Sat 6.1 GA Snap 5 Compose 2

How reproducible:
Always

Steps to Reproduce:
1. Create a custom product under product tab.
2. Once finish with product create, Click on Repo Discovery button under product tab.
3. Give URL to discover the repos.
4. Select discovered URL and Click Create Selected button.
5. Click on Existing Product radio button to create the repo within the existing product.

Actual results:
Observed the existing product list is empty.

Expected results:
The available products list should be displayed.
