**Description**

Hi,

Currently the plugin only seems to accept DS files as content. It would be very cool if we can also add reports for testing against the OVAL CVE datasets (eg. from Redhat).

Ofcource i'm happy to discuss/think/test if needed :-)

Gerwin Krist aka Rodehoed

**Subtasks:**

- Feature # 31033: Add model and API for OVAL content: Closed
- Feature # 31034: Add model and API for OVAL policy: Closed
- Feature # 31035: Make it possible to assign OVAL policies to hosts: Closed
- Feature # 31036: Add information about OVAL policies to host ENC: Closed
- Feature # 31037: Support OVAL policies in foreman_scap_client Ansible role: Closed
- Feature # 31038: Scap client should support 'oscap eval oval': Closed
- Feature # 31039: smart_proxy_openscap should distribute OVAL files to client: Closed
- Feature # 31040: smart_proxy_openscap should process OVAL report: Closed
- Feature # 31042: It should be possible to receive and store parsed OVAL reports: Ready For Testing
- Feature # 31044: Make it possible to use 'sync stream' for content files. : Closed
- Feature # 31380: Add host status based on uploaded OVAL data: Closed

**Related issues:**

- Related to OpenSCAP - Feature #31083: Add a Vulnerability Host sub-status based on the last received OVAL report: New
- Related to Foreman - Feature #31383: Add report template for host CVEs detected during OVAL scan: Closed
