Foreman - Bug #11683

Spinner in puppet class parameters spinning indefinitely on hostgroup creation

09/04/2015 03:25 AM - Ondřej Pražák

Status: Closed
Priority: Normal
Assignee: Ondřej Pražák
Category: Host groups
Target version: 1.10.0
Difficulty:

Pull request: https://github.com/theforeman/foreman/pull/2677
Triaged:
Bugzilla link:

Description
When creating a new hostgroup, a spinner in puppet class table under ‘Parameters’ tab appears and spins indefinitely.

To reproduce:
1) Configure > Hostgroups > New Hostgroup
2) select arbitrary Lifecycle Environment
3) select arbitrary Puppet Environment
4) go to ‘Parameters’ tab
5) spinner is spinning indefinitely as a result of failed call to the server

Root cause is that hostgroup id is expected in params (which naturally does not exists since hostgroup has not been created yet):
https://github.com/theforeman/foreman/blob/develop/app/controllers/hostgroups_controller.rb#L93
And then in js function handling the call:
https://github.com/theforeman/foreman/blob/develop/app/assets/javascripts/host_edit.js#L170-L199
