Foreman - Bug #14131
Libvirt image provision fails on FreeBSD without bash

03/10/2016 01:23 AM - Karli Sjöberg

Status: Closed
Priority: Normal
Assignee: Karli Sjöberg
Category: Compute resources
Target version: 1.11.1

Pull request: https://github.com/theforeman/foreman/pull/3304

Description
bash: no such file or directory

Thankfully there’s an easy fix, just changing ‘bash’ to ‘sh’ in the SSH provision script. In Linux, ‘/bin/sh’ is symlinked to ‘/bin/bash’, so it works all around.

TIA
Karli
