Foreman - Bug #14369

When creating new organization, host selection step won’t show, if the user is in context of different organization.

### Target version
1.12.0

### Difficulty
Pull request: https://github.com/theforeman/foreman/pull/3371

### Triaged:
Fix in Releases:

### Bugzilla link:
1321826

### Description

#### Steps to reproduce:

1. Make sure you have a host without organization.
2. Pick an organization for your context (Make sure you have organization name instead of "Any context")
3. Create a new organization

#### Expected:
Redirection to "Step 2" - hosts selector

#### Actual:
Redirection to Edit organization screen.

The problem is in #count_nil_hosts, it uses Host.where(taxonomy_id => nil).count to check for unassigned hosts. By default this is scoped:

```ruby
Host.where(taxonomy_id => nil).to_sql
#=> "SELECT "hosts".* FROM "hosts" WHERE "hosts"."type" IN ('Host::Managed') AND "hosts"."location_id" IN (12) AND "hosts"."location_id" IS NULL"
```

This query will always return 0.
