| Found in Releases: |                     |

Description
I believe this is a regression and it was set to INFO previously. Currently I see this set to ERROR which is not good. There is nothing that can tell you that requests are actually coming to proxy. Since we rotate our logs and traffic is not huge, I see no reason not to set it to INFO. Our logging is clean:

Associated revisions
Revision b0ae4e0d - 05/11/2016 10:11 AM - Lukas Zapletal
Fixes #14995 - proxy default log is INFO

History

#1 - 05/11/2016 03:44 AM - Dominic Cleal
- Project changed from Installer to Smart Proxy
- Category changed from Foreman modules to Core

The installer follows the smart proxy default, which is (and has been for as long as I'm aware) set to ERROR - per settings.yml.example and lib/proxy/settings/global.rb.

#2 - 05/11/2016 03:49 AM - Lukas Zapletal
- Tracker changed from Bug to Refactor

Changing this to proposal, I see no reason why to avoid INFO.

#3 - 05/11/2016 03:53 AM - The Foreman Bot
- Status changed from New to Ready For Testing
- Assignee set to Lukas Zapletal
- Pull request https://github.com/theforeman/smart-proxy/pull/417 added

#4 - 05/11/2016 11:02 AM - Anonymous
- Status changed from Ready For Testing to Closed

04/02/2022
- % Done changed from 0 to 100

Applied in changeset b0ae4e0dbf8374bb9cde4f4fd666493952216bdf0.

#5 - 05/12/2016 10:04 AM - Dominic Cleal
- Legacy Backlogs Release (now unused) set to 136
