SELinux - Bug #15640

OpenStack Neutron service SELinux denial during provisioning

07/11/2016 07:09 AM - Lukas Zapletal

Status: Closed  Priority: Normal
Assignee: Lukas Zapletal  Category: Compute resources
Target version:  Difficulty: Pull request: https://github.com/theforeman/foreman-selinux/pull/59
Triaged:  Fixed in Releases: Found in Releases:
Bugzilla link: 1352707

Description
Neutron port 9696 is missing in our policy. It looks like it is present in both RHEL6 and RHEL7 (tested with 6.6 and 7.2) so easy fix.

Steps to Reproduce:
1. Provision a 'New Host' on OpenStack, observe the /var/log/audit/audit.log, to see the SELinux denial issues.

Actual results:
In /var/log/audit/audit.log

type=AVC msg=audit(1467659098.220:1559): avc: denied { name_connect } for pid=11002 comm="diagnostic_con" dest=9696
scontext=system_u:system_r:passenger_t:s0 tcontext=system_u:object_r:neutron_port_t:s0 tclass=tcp_socket
