Foreman - Bug #17781
"us-east-2" (Ohio region) not in foreman-ec2 compute resource
12/19/2016 03:59 PM - Ben Howell

Description
The foreman-ec2 compute resource does not recognize "us-east-2" as an available region.

2016-12-19T20:50:21 d240091e [app] [W] Failed to generate key pair
  | ArgumentError: Unknown region: "us-east-2"

I looked at the ec2 compute resource plugin(? is that even what it's called?) and found no references to us-east-2, only us-east-1. Can this be added/backported to 1.13.x?

This might (at least partly) be fixed with fog-aws 0.13. Which fog-aws version is your Foreman using currently?

How do I get my fog-aws version info?

#5 - 12/21/2016 11:32 AM - Ben Howell
It looks like I'm running either fog-aws 0.12 or 0.13. I didn't see it in the gems as the foreman user, but doing a simple find | grep gave me

```bash
$ find | grep fog-aws
./vendor/cache/fog-aws-0.13.0.gem
./vendor/ruby/2.3.0/cache/fog-aws-0.13.0.gem
./vendor/ruby/2.3.0/cache/fog-aws-0.12.0.gem
```

I just ran apt-get update && apt-get upgrade and it looks like fog-aws 0.1.2 was the issue. It's now running 0.1.3 and us-east-2 is present and usable.

#7 - 12/21/2016 11:41 AM - Anonymous
1.13.3 contains fog-aws 0.13.0 in the DPKGs. So we know now, fog-aws 0.13.0 fixes this, thanks!

This is solved for DEB now and I'll open a RPM pull request with that update.
