Notifications issues prevent host to be destroyed

03/17/2017 01:02 PM - Ivan Necas

Status: Closed
Priority: Normal
Assignee: Ivan Necas
Category: Notifications
Target version: 1.15.0

Pull request: https://github.com/theforeman/foreman/pull/4302,
https://github.com/theforeman/foreman/pull/4387

Description

When a host doesn't have an owner set (it happened to me, when I created fake host via console, the failure to send notification prevented the host to be destroyed and no useful message was provided: everything seemed fine, except the host was still there.

I believe the failures in notifications should not influence the functionality of the operation itself.

Revision 54db95ae - 03/19/2017 03:34 AM - Ivan Necas
Fixes #18952 - fix destroy of host without owner

The notifications failure caused the host not being deleted. I don't think the notifications should interfere with the core functionality of the objects.
