Foreman - Feature #19934
Prioritize attribute order in puppet classes limited to 255 chars
06/06/2017 03:21 AM - Tomer Brisker

Status: Closed
Priority: Normal
Assignee: Tomer Brisker
Category: Parameters
Target version: 1.16.0

Pull request: https://github.com/theforeman/foreman/pull/4572

Description
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1458817

Description of problem:
Prioritize attribute order feature for puppet class override does not allow more than 255 characters.

Version-Release number of selected component (if applicable): 6.2.9

How reproducible: Always

Steps to Reproduce:
1. Go to Sat Webui, "Configure" --> "Classes" --> Select a class
2. Go to "Smart Class Parameter" --> Select a class and click on override
3. Enter/paste more than 255 chars in the "Order" field and try to save it

Actual results:
Errors out with "is too long (maximum is 255 characters)"

Expected results:
Should get accepted

Additional info:
Customer is trying for 604 chars

- Priority changed from High to Normal

This is really an RFE, the field 'Order' is only meant to contain the types of matchers, not the values of the matchers themselves.

fqdn
hostgroup
os
domain
Instead I believe you want to input hostgroup labels directly and have Foreman automatically understand you want to match hostgroups params in a certain order.

We can trivially remove the limit but it won't help with the goal you have, as the field isn't meant for that, hence why I'm changing it to RFE (it makes sense though)
