Hammer CLI - Bug #19999
Support for associating multiple provisioning templates at once
06/13/2017 09:55 AM - Tomáš Strachota

Status: Closed
Priority: Normal
Assignee: yifat makias
Category: Provisioning templates
Target version:

Difficulty: 
Triaged: Yes
Bugzilla link: 
Pull request: https://github.com/theforeman/hammer-cli-foreman/pull/484

In Kanboard: yes

Description
hammer os add-config-template allows to add templates only one by one. Allowing to set more templates at once would make it easier to use the command.

Current usage:

hammer os add-config-template -h
Usage:
  hammer os add-config-template [OPTIONS]

Options:
--config-template CONFIG_TEMPLATE_NAME Name to search by
--config-template-id CONFIG_TEMPLATE_ID
--id ID
--title TITLE Operating system title
-h, --help print help

Expected usage:

hammer os add-config-template -h
Usage:
  hammer os add-config-template [OPTIONS]

Options:
--config-templates NAMES Names of templates
--config-template-ids IDS IDs of templates
--id ID
--title TITLE Operating system title
-h, --help print help

At the same time we need to keep backward compatibility and accept the old options with a deprecation warning.

One extra feature could be a search field, that would associate all matching templates:

hammer os add-config-template --title 'RedHat 7' --config-template-search="Kickstart*"
