We should upgrade react to v16 in order to take advantage of various new features available.

One main feature that it would be great to take advantage of is the new portals API: [https://reactjs.org/docs/portals.html](https://reactjs.org/docs/portals.html) which would improve how we are currently handling DOM mounting.

Fixes #21160: Upgrade to React@16

This PR is to prepare for and merge React@16.0.0

The current Foreman code is compliant with React@15.6.2 which means everything should work with React@16.
