Bugzilla link: 1156582

Pull request: https://github.com/theforeman/hammer-cli-foreman/pull/423,
https://github.com/theforeman/hammer-cli-foreman/pull/388

In Kanboard:

Description
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1156582

The 'hammer host list' command does not include Description and Location fields. It should be possible to configure the command in a way that it returns those fields in addition to the default ones.

Revision e3311b08 - 06/17/2019 03:19 PM - Akshay Mendhe
Fixes #21764 - Add Location and Description Fields

History

#1 - 12/04/2017 01:10 PM - Tomáš Strachota
- Category changed from Other commands to Hosts
- Description updated
- Subject changed from add system location and description fields in hammer host commands to Add system location and description fields in hammer host commands

The original issue description that was cloned from a BZ wasn't related to hammer at all and contained very little information about the feature. I condensed the text.
