</table>

Description
When some keys are missing, telemetry stack won't boot:

```ruby
:telemetry:
  :prefix: 'fm_rails'
  :statsd:
    :enabled: true
    :host: '127.0.0.1:9125'
    :protocol: 'statsd'
```

Error is: Missing hash key :prometheus - we need to parse this in a better way.
