Description
We have a BMC provider, but not all servers have BMC onboard. We should add capability to reboot servers from the shell, in such cases.

Associated revisions
Revision 3a19312e - 04/10/2013 07:29 AM - Greg Sutcliffe
fixes #2387 - Add shell provider to the BMC API

- Only Accepts on/off/status/cycle for power commands
- Needs sudo for the proxy to call /sbin/shutdown
- Adds a simple test for calling the shutdown api

History
#1 - 04/10/2013 05:41 AM - Greg Sutcliffe
First pass at this will only do reboot on the proxy machine. I see little value in poweroff, since we can't power it back on, and handling remote servers requires some kind of authentication setup which we don't have yet.

#2 - 04/10/2013 05:43 AM - Greg Sutcliffe
- Status changed from Assigned to Ready For Testing

#3 - 04/10/2013 01:43 PM - Anonymous
- Status changed from Ready For Testing to Closed
- % Done changed from 0 to 100

Applied in changeset 3a19312eace673ad602c89180f1bffe46ba21.

#4 - 05/10/2013 09:04 AM - Dominic Cleal
- Target version changed from 26 to 1.2.0

#5 - 07/10/2018 02:43 PM - Greg Sutcliffe
- Target version deleted (1.2.0)
