### Description

If someone specifies settings in YAML like this:

```yaml
yaml
tls_disabled_versions:
- 1.1
```

Ruby will interpret it as a float. Currently, it must be quoted. Ivan Necas added a `to_s` to the dynflow smart proxy plugin ([https://github.com/theforeman/smart_proxy_dynflow/pull/43#pullrequestreview-92019342](https://github.com/theforeman/smart_proxy_dynflow/pull/43#pullrequestreview-92019342)) to fix this, this commit makes smart proxy behavior the same.
