Some audits show 'missing' instead of name

To reproduce:
1. Go to a product.
2. In tab "Details", change "Sync plan" to a plan called 'test sync plan'.
3. Go to Audits.

Results: The latest audit says something like "Sync plan changed from N/A to Missing(ID: 1)". If you click on the details, it shows the correct text.
Expected result: "Sync plan changed from N/A to test sync plan"

Revision f501c49e - 08/04/2018 07:51 PM - Daniel Lobato Garcia
Fixes #24298 - Some audits show 'Missing ID' instead of name

This happens when you're visiting the index page. The helper relies on '@audit' to generate some of the audits. This does not work, since @audit is only set when you view the details page of an audit.

For this reason, as an example changing fields of a host with associations, like the puppet proxy, does not show the proper value in the index, but it does show the proper value on the details page.

See the issue in Redmine for a reproduced with Katello sync plans.

History

#1 - 07/19/2018 10:26 AM - Daniel Lobato Garcia
- Category changed from Sync Plans to Audit Log
Moving to Foreman as I found the issue and it's in Foreman actually.

#2 - 07/19/2018 10:27 AM - Daniel Lobato Garcia
  - Subject changed from Sync plan audit is shows 'missing' instead of name to Some audits show 'missing' instead of name
