**Description**

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1632899

**Description of problem:**

After adding default organization/location, Listing reports fails with error "Association not found for organization/location"

**Version-Release number of selected component (if applicable):** Satellite 6.4

satellite-6.4.0-14.el7sat.noarch

**How reproducible:**

Always

**Steps to Reproduce:**

```bash
[root@satellite64 ~]# hammer organization list
---|----------------------|----------------------|-------------|----------------------
ID | TITLE                | NAME                 | DESCRIPTION | LABEL
---|----------------------|----------------------|-------------|----------------------
1  | Default Organization | Default Organization |             | Default_Organization
---|----------------------|----------------------|-------------|----------------------

[root@satellite64 ~]# hammer defaults list
----------------|------
PARAMETER        | VALUE
----------------|------
organization_id | 1
----------------|------

[root@satellite64 ~]# hammer report list
Association not found for organization
```

**Actual results:**

Failed to list report

**Expected results:**

Should list reports

**Additional info:**

This is working in satellite 6.3

Applied the patch https://github.com/theforeman/foreman/pull/6075 but still failing

**Production log:**

RuntimeError: Association not found for location
