| Target version: | 1.20.0 |

Pull request: https://github.com/theforeman/foreman-installer/pull/300

Fixed in Releases: 1.20.0
Found in Releases: 1.20.0, 1.21.0

Description

In 9929fe2ed9009fdec146a6ee75f2f2d7f084f6f7 the building process was changed. A regression was introduced that no longer uncommented the kafo_modules_dir.

Source (config/foreman.yaml):

```yaml
# :kafo_modules_dir: /usr/lib/ruby/vendor_ruby/kafo/modules
```

With the command:

```
KAFO_MODULES_DIR=/path/to/kafo/modules bundle exec rake
```

Before the regression it produced:

```
:kafo_modules_dir: /path/to/kafo/modules
```

After the regression it didn't uncomment the setting:

```yaml
# :kafo_modules_dir: /path/to/kafo/modules
```

Fixes #25304 - Correct handle kafo_modules_dir

In 9929fe2ed9009fdec146a6ee75f2f2d7f084f6f7 the building process was changed. A regression was introduced that no longer uncommented the kafo_modules_dir.

Source (config/foreman.yaml):

```yaml
1. :kafo_modules_dir: /usr/lib/ruby/vendor_ruby/kafo/modules
```

With the command:
Before the regression it produced:

:kafo_modules_dir: /path/to/kafo/modules

After the regression it didn't uncomment the setting:

1.:kafo_modules_dir: /path/to/kafo/modules

This patch restores the old behavior.
