**Description**

Puppet Class import fails with "ActiveRecord::RecordInvalid: Validation failed: Puppet class can't be blank" when user does not have create_puppetclasses permission.

We should add a proper error message when [link](https://github.com/theforeman/foreman/blob/f22a6c642a161bee0131e826cf9e7726fb901b08/app/services/puppet_class_importer.rb#L259) fails to create the puppetclass.

**Associated revisions**

Revision 167c5f5b - 11/05/2018 12:00 PM - Timo Goebel

fixes #25305 - error when puppetclass cannot be created
