Pull request: https://github.com/theforeman/foreman/pull/6189
Fixed in Releases: 1.21.0
Found in Releases: 1.20.0

Description

While working on the models table, I realized that the page should be reset to 1 when selecting per_page.

To reproduce this error:
1) Go to Hosts > Hardware Models
2) Create 10 new models unless you have at least 10 models
3) In the pagination row select 5 per page
4) Go to the second page from the pagination row
5) Select 20 per page from the pagination row

What I received:
An empty table

What I expected to have:
Move to the first page and see models in the table
