**Team Backlog:** Hammer

**Fixed in Releases:** hammer-cli-0.19.0

**Found in Releases:**

**In Kanboard:**

**Description**

When there are new lines in the text attributes, it affect how hammer displays individual rows. As a result, the following commands cannot be used to retrieve ids.

```
hammer organization list | grep -vE "--|ID" | awk '{ print $1 }'
hammer --csv organization list | grep -vi '^id' | awk -F, '{ print $1 }'
```

Because there is a newline character in the "Description" field on the "Edit <Organization Name>" page available at Administer > Organizations > Primary, the text on the new line will show up in the "ID" field of the commands above.

**Steps to Reproduce:**
1. Create an Organization with additional information on a new line in the Description field.
2. Login to the CLI of the Foreman server as an admin user.
3. Run the commands included in this bug report.

Additionally, there are two "Description" fields in the output of "hammer organization list".
