Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1664296

Description of problem:

Links to templates on host build failure lead to 404.

Steps to Reproduce:

1. Setup a provisioning template that produces an error
2. In managed host details, click build
3. The popup shows info about the failed template, with links to edit the template

Action result:

The link looks like this:

https://foreman.example.com/templates/provisioning_templates/Kickstart%20default%20PXELinux/edit

Expected results:

The link looks like this:

https://foreman.example.com/templates/provisioning_templates/14-Kickstart%20default%20PXELinux/edit
