**Description**

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1647482

**Description of problem:**

Missing HTML IDs (at least) in Vertical Navigation. Regression against 6.4.

**Version-Release number of selected component (if applicable):**

Sat 6.5 snap 1

**How reproducible:**

Deterministic

**Steps to Reproduce:**

1. Login the Satellite
2. On the homepage, inspect Vertical Navigation's HTML

**Actual results:**

The tags don't have ID specified

**Expected results:**

The tags should have ID specified (preferably the same as in Sat 6.4)

fixes #26052 - navigation missing IDs

**Revision bfce9f2d - 05/20/2019 07:04 AM - Tomer Brisker**

Refs #26052 - skip menu items with no name

Not all menu items have a name, but patternfly-react requires names and various attributes (such as id) assume the name is present.
This filters out any items with no name.
The selector has also been refactored a bit, to use `.map` instead of `.forEach` and extracted the children logic to a separate function.
History
