Description

Currently the generated puppetmaster and puppet_ca_server hostnames are the same as the smart proxy.

This isn't always the case. When you have a setup:

Foreman <-> Smart Proxy <-> Hosts

Here you have a private LAN between Foreman and its Smart Proxies. There is another network which has hosts. Here you'd have the Puppet (CA) on the host network. In hostnames:

- foreman.lan.example.com (192.0.2.2)
- proxy.lan.example.com (192.0.2.3)
- proxy.wan.example.com (198.51.100.3)
- puppet.wan.example.com (198.51.100.4)
- puppetca.wan.example.com (198.51.100.5)

In /etc/foreman-proxy/settings.d/puppet_proxy_puppet_api.yml you'd configure:

:puppet_url: https://puppet.wan.example.com:8140

In /etc/foreman-proxy/settings.d/puppetca_http_api.yml (Proxy 1.22) you'd configure:

:puppet_url: https://puppetca.wan.example.com:8140

By using the new capabilities framework we can expose these settings to Foreman. Foreman can use these to present the correct hostnames, like in the provisioning templates.

Associated revisions

Revision c2317d44 - 09/09/2019 11:25 AM - Ewoud Kohl van Wijngaarden

Fixes #26164 - Use the proxy configured puppet_url

When the proxy exposes the puppet_url setting for the Puppet or Puppet CA features this can be used to provide multi homing.
An additional benefit is that we support using a non-standard port for both the Puppet master and the CA.

History

#1 - 02/26/2019 02:58 PM - The Foreman Bot
- Assignee set to Ewoud Kohl van Wijngaarden
- Status changed from New to Ready For Testing
- Pull request https://github.com/theforeman/foreman/pull/6513 added

#2 - 02/26/2019 03:07 PM - Ewoud Kohl van Wijngaarden
- Related to Feature #4345: Puppet CA proxy added

#3 - 03/12/2019 03:09 PM - Ewoud Kohl van Wijngaarden
- Related to Feature #26322: Expose the Puppet API URLs added

#4 - 05/20/2019 07:50 AM - Tomer Brisker
- Target version changed from 1.22.0 to 1.23.0

Looks like this didn't make it in to 1.22.

#5 - 07/31/2019 01:21 PM - Tomer Brisker
- Target version deleted (1.23.0)

this is still wip and missed the 1.23 branching.

#6 - 09/09/2019 11:25 AM - The Foreman Bot
- Fixed in Releases 1.24.0 added

#7 - 09/09/2019 12:01 PM - Ewoud Kohl van Wijngaarden
- Status changed from Ready For Testing to Closed

Applied in changeset c2317d4430325be04df9ddfe65f47223b7733b8b.

#8 - 10/24/2019 12:51 PM - Amit Upadhye
- Category set to PuppetCA

#9 - 10/24/2019 12:57 PM - Ewoud Kohl van Wijngaarden
- Category changed from PuppetCA to Puppet integration
