Foreman - Bug #26331

smart proxy v2 create api returns empty feature list

03/13/2019 02:06 AM - Justin Sherrill

Status: Closed
Priority: Normal
Assignee: Justin Sherrill
Category: Smart Proxy

Description
The smart proxy create v2 api will return an empty list of features even when features were discovered. This is because the the smart_proxy_features association is populated, but without reloading the object the features list is cached as being empty.
