Triaged: No
Fixed in Releases: 1.22.0
Found in Releases: 1.21.1

Description
Hello,

I just upgraded Foreman to latest, 1.21 and noticed Locations needs to be used.
After checked the checkbox 'All users' inside a location settings, users couldn't see the location.
Under the location box in users- location tab, the location wasn't on the "selected items" box.

Once removed the checkbox 'All users' the location appeared on the "selected items" box in a user settings.

Associated revisions
Revision 9bd4fac1 - 03/27/2019 08:58 AM - Tomer Brisker
Fixes #26392 - Include "all users" taxonomies in my_taxes

Otherwise, when selecting all users, users will not be able to set the
default taxonomy to such taxonomy, nor will other methods of
authentication would function correctly.
