Installer - Bug #26702
Inconsistent naming of the --upgrade-mongo-storage-engine flag
04/29/2019 11:10 AM - Evgeni Golov

Status: Closed
Priority: Normal
Assignee: Evgeni Golov
Category: foreman-installer script
Target version: 1.23.0
Difficulty: trivial
Pull request: https://github.com/theforeman/foreman-installer/pull/349
Triaged: Yes
Found in Releases: 1.23.0
Bugzilla link: 1704806

Description
The flag is called --upgrade-mongo-storage-engine, but the installer sometimes forgets the -engine:

% git grep mongo-storage
katello/hooks/boot/21-mongo_storage_engine.rb: '--upgrade-mongo-storage-engine',
katello/hooks/pre/30-upgrade.rb: logger.info 'To upgrade to WiredTiger at a later time run foreman-installer with the --upgrade-mongo-storage flag.'
katello/hooks/pre/30-upgrade.rb: f << "# Added by foreman-installer during upgrade, run the installer with --upgrade-mongo-storage to upgrade to WiredTiger.
"
katello/hooks/pre/31-mongo_storage_engine.rb: Kafo::Helpers.execute("sed -i -e 's/Added by foreman-installer during upgrade, run the installer with --upgrade-mongo-storage to upgrade to WiredTiger./Do not remove'/g #{hiera_file}")
katello/hooks/pre_validations/30-mongo_storage_engine.rb: fail_and_exit 'Concurrent use of --upgrade and --upgrade-mongo-storage is not supported. '
katello/hooks/pre_validations/30-mongo_storage_engine.rb: 'Please run --upgrade first, then --upgrade-mongo-storage-engine.'

Fixes #26702 - use ----upgrade-mongo-storage-engine everywhere

History
#1 - 04/29/2019 11:11 AM - The Foreman Bot
- Status changed from New to Ready For Testing
- Pull request https://github.com/theforeman/foreman-installer/pull/349 added

#2 - 04/29/2019 12:50 PM - Ewoud Kohl van Wijngaarden
- Triaged changed from No to Yes
- Target version set to 1.23.0
- Category set to foreman-installer script
- Fixed in Releases 1.23.0 added

Should this be cherry picked into 1.22 now that it's still RC?
