## Foreman - Feature #26729

### Add redux middleware for API calls

### Description

[https://community.theforeman.org/t/wip-proposal-refactoring-our-redux/11640](https://community.theforeman.org/t/wip-proposal-refactoring-our-redux/11640)

The goal is to create a new infrastructure for API communication that will make it easier to do API calls from redux controllers. So we can create actions that will look like this:

```javascript
return {
    type: API_REQUEST,
    action: ACTIONS.GET,
    url: `/foreman_tasks/tasks/summary/${hours}`,
    subType: FOREMAN_TASKS_DASHBOARD_FETCH_TASKS_SUMMARY,
    normalizeResponse: (data) => data.results[0],
    normalizeError: error => error.message,
    onError: error => console.log(error),
}
```
