Missing admin credentials in satellite-installer output.

Description of problem:

Missing admin credentials in satellite-installer output.

Version-Release number of selected component (if applicable):

@Satellite 6.6.0(Snap1)

How reproducible:

Always

Steps to Reproduce:

1. Setup pre-requisite for satellite 6.6.0 installation.
2. Execute Satellite installer command(satellite-installer --scenario satellite)

Actual results:

1. satellite-installer --scenario satellite
   Installing                 Done                     [100%]
   [.................................]                          
   Success!  * Satellite is running at https://hostname.example.com
   ○ To install an additional Capsule on separate machine continue by running:
     capsule-certs-generate --foreman-proxy-fqdn "$CAPSULE" --certs-tar "/root/$CAPSULE-certs.tar"
   ○ To upgrade an existing 6.4 Capsule to 6.5:
   Please see official documentation for steps and parameters to use when upgrading a 6.4 Capsule to 6.5.

The full log is at /var/log/foreman-installer/satellite.log
yum install -y -q rh-mongodb34-syspaths finished successfully!

Expected results:

1. satellite-installer --scenario satellite
   Resetting puppet server version param...
   Installing                 Service[puppetserver]  [86%]
   [..........................................................]                          
   Installing                 Done                     [100%]
   [..........................................................]                          
   Success!  * Satellite is running at https://hostname.example.com
   Initial credentials are admin / bdsbdkdsd
To install an additional Capsule on separate machine continue by running:

capsule-certs-generate --foreman-proxy-fqdn "$CAPSULE" --certs-tar "/root/$CAPSULE-certs.tar"

To upgrade an existing 6.4 Capsule to 6.5:
Please see official documentation for steps and parameters to use when upgrading a 6.4 Capsule to 6.5.

The full log is at /var/log/foreman-installer/satellite.log
yum install -y -q rh-mongodb34-syspaths finished successfully!
