**Description**

As a user, I would like to perform actions on multiple records at the same time. This might be useful for deleting items in bulk, but other actions as well.

As a developer, I want to easily add a new type of bulk action and make it available for relevant models.

Discussion for this: [https://community.theforeman.org/t/ux-improvement-bulk-delete-things-maybe-general-bulk-actions/13702](https://community.theforeman.org/t/ux-improvement-bulk-delete-things-maybe-general-bulk-actions/13702)
