Description
Accessing VM console from GCE CR, shows error type message for console is not supported currently, should be an info type message.

Step:
2. Wait for all the VMs to be listed in VMs tab under GCE CR.
3. Click the Console button to access the console in any VM.

Actual Result:
Foreman shows error type message for the console is not supported currently.

Expected Result:
Foreman should show an info type message for not supported.
