**Pull request:** https://github.com/theforeman/puppet-foreman_proxy/pull/507

**Fixed in Releases:** 1.23.0

**Found in Releases:**

---

**Description**

This option was implemented little bit later:

```yaml
--- a/config/dns_infoblox.yml.example
+++ b/config/dns_infoblox.yml.example

# View used for records, usually 'default.myview' for custom names.
+#:dns_view: 'default'
```

We want this in Puppet and Installer.
