Description
Adding a tooltip for IPv4 Subnet on NIC base form that will clarify that IPv4 Subnet with TFTP Capsule is required for PXE provisioning.

Subnet field was made optional with: https://projects.theforeman.org/issues/15133

We should have a note that says it is not optional when using PXE

RH bugzilla was opened at: https://bugzilla.redhat.com/show_bug.cgi?id=1712015
