Hammer CLI - Feature #27596
Show gateway address with 'hammer subnet list', either by default or as option
08/12/2019 05:49 PM - Oleh Fedorenko

Status: Closed
Priority: Normal
Assignee: yifat makias
Category: Other commands
Target version:
Difficulty: easy
Triaged: Yes
Bugzilla link: 1680053
Pull request: https://github.com/theforeman/hammer-cli-foreman/pull/444
In Kanboard:

Description
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1680053

Description of problem:
Currently it's not possible to also show the gateway address with 'hammer subnet list' - example output:

```
# hammer subnet list
---|----------|--------------|---------------|--------
ID | NAME     | NETWORK      | MASK          | VLAN ID
---|----------|--------------|---------------|--------
1  | net-int1 | 192.168.40.0 | 255.255.255.0 |
4  | net-dmz2 | 192.168.51.0 | 255.255.255.0 |
2  | net-int2 | 192.168.41.0 | 255.255.255.0 |
---|----------|--------------|---------------|--------
```

As reference, the gateway address is available with 'hammer subnet info':
```
# hammer subnet info --id 1 | grep Gateway
Gateway: 192.168.40.1
```

Version-Release number of selected component (if applicable):
Satellite 6

Actual results:
It's not possible to show the gateway address with 'hammer subnet list'.

Expected results:
Also show the gateway address with 'hammer subnet list' by default, or as an option.

Additional info:
The following upstream RFE might be relevant:
Possibility to limit or add fields that are displayed
