Refs #27654 - Move HTTP enabled logic to plugin settings

This introduces simple helpers to be used elsewhere. The Plugin Settings class makes more sense for this since it's specific to a plugin setting.

Revision 79ce65f7 - 08/30/2019 10:09 AM - Ewoud Kohl van Wijngaarden
Refs #27654 - Account for module enabled over http or not

The module can be enabled for http-only while the proxy is https-only (or other combinations). This patch takes the enabled setting into account and guarantees that the http_port is only set when the module is actually available over http. The same goes for https_port.
