Pull request: 
Fixed in Releases: 1.24.0
Found in Releases: 

Description
Officially we don't support more than 1 minor level upgrade at once, but we still keep all the migrations. 3.6.0 was chosen since it's a nice cut off point because it allows dropping all migrations prior to 2018.

Not carrying the migrations makes it easier to clean up the default answers and less things that can break.
