Description
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1635093

Description of problem: In the overview page of the satellite GUI we can see the host configuration chart graph which is mainly formed based on the puppet reports. It also reports for esx/hypervisors associated with the satellite. We cannot install puppet on the hypervisors hence it will never show a full okay or green. The workaround is provided in case 02189577

Version-Release number of selected component (if applicable):

How reproducible: Login to web ui of the satellite which has hypervisors registered.

Steps to Reproduce:
1.
2.
3.

Actual results:

Expected results:

Additional info: Please refer case 02189577
