Hammer CLI - Bug #28318

Running hammer auth login basic command remotely gives Error: No such device or address @ rb_sysopen - /dev/tty

11/20/2019 02:36 PM - Martin Bacovsky

Status: Closed
Priority: Normal
Assignee: Martin Bacovsky
Category: Other commands
Target version:
Difficulty:
Triaged: No
Bugzilla link: 1772884
Pull request: https://github.com/theforeman/hammer-cli-foreman/pull/452

Description
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1772884

Description of problem:
Running hammer auth login basic command remotely gives Error: No such device or address @ rb_sysopen - /dev/tty

Version-Release number of selected component (if applicable):
Satellite 6.7 snap 1

How reproducible:
always

Steps to Reproduce:
1. set use_session as true in hammer config
2. ssh root@satellite.example.com "hammer auth login basic --username=CqVvXhXCSf --password=ExZccFurXO"

Actual results:
Error: No such device or address @ rb_sysopen - /dev/tty

Expected results:
Should run successfully.

Additional info: This is regression as the previous hammer auth login command was working fine if run remotely. Also this is automation blocker.
