Tomer, I would like to request backport this one into 1.24. Monitoring has some issues downstream and I would like to get this opportunity to load telemetry data via Prometheus API rather than statsd. This would require prometheus rubygem version bump to 1.0.0 too if that's not a problem. Can file all the PRs.
I cherry-picked the upgrade to 1.24 branch, please open a PR to update packaging accordingly.
