Description

It was renamed to config_reports in #4151.
We need to maintain the post endpoint since it is still used by ansible - https://github.com/ansible/ansible/pull/64955 is open to fix that

Associated revisions

Revision f2b65037 - 12/31/2019 12:54 PM - Tomer Brisker
Fixes #28594 - Drop reports api endpoints

This has been replaced with /config_reports 1.11.
We maintain one endpoint for POST to /api/reports for backwards compatibility due to ansible and chef callbacks still using it. The endpoint however now points to the newer controller action so the code isn't duplicated.
