Pull request: https://github.com/theforeman/smart-proxy/pull/759

Description
Infoblox attempts to create records with MAC address. Currently it fails with

```
/usr/share/gems/gems/smart_proxy_dhcp_infoblox-0.0.15/lib/smart_proxy_dhcp_infoblox/common_crud.rb:20:in `new'
/usr/share/gems/gems/smart_proxy_dhcp_infoblox-0.0.15/lib/smart_proxy_dhcp_infoblox/common_crud.rb:20:in `block in all_leases'
/usr/share/gems/gems/smart_proxy_dhcp_infoblox-0.0.15/lib/smart_proxy_dhcp_infoblox/common_crud.rb:19:in `map'
/usr/share/gems/gems/smart_proxy_dhcp_infoblox-0.0.15/lib/smart_proxy_dhcp_infoblox/common_crud.rb:19:in `all_leases'
```

It should properly fail with Invalid MAC address.
