Foreman - Bug #29709

Only one interface can be marked as Managed

05/06/2020 10:44 AM - Michael Spindelboeck

Status: Closed
Priority: High
Assignee: Ondřej Pražák
Category: Network
Target version: 2.0.1

Description
Since the 2.0 update I have the problem that only one interface could be managed. This only applies to the web interface. Seems that the managed button is a toggle now.

We have the problem in all three foreman installations. All have the same foreman version.

Expected outcome:
More than one interface could be managed

Foreman and Proxy versions:
foreman-2.0.0-2.el7.noarch
foreman-proxy-2.0.0-1.el7.noarch

Foreman and Proxy plugin versions:
tfm-rubygem-foreman-tasks-1.0.1-3.fm2_0.el7.noarch

I understand correctly that the fix is included in 2.1rc3. If so, it won't work.
