Description
The --reset-foreman-db option and --reset both try to handle resetting of the main database and backend service databases. These can be combined into a single hook `--reset-data` that handles both depending on available services.

Associated revisions
Revision 7ca7d88d - 07/14/2020 02:20 PM - William Clark
Fixes #29797 - Merge --reset-foreman-db and --reset into --reset-data

Revision a598af81 - 09/01/2020 06:54 PM - Ewoud Kohl van Wijngaarden
Refs #29797 - Move interactive part to pre_validations

In the pre phase everything has been committed to disk. It should never call exit based on user input. By moving the interactive part of pre_validations, the user is asked before any changes to the system are made.
