**Pull request:**

**Fixed in Releases:**

**Found in Releases:**

**Description**

It should be possible to provide an overview of current hosts status - e.g.:

- hosts that changed something in their last run / 24 hours
- hosts that had a failure in the last run / 24 hours
- hosts that didn't run puppet in the last 30 minutes

anything else?

**Associated revisions**

**Revision 90b70658 - 10/28/2009 06:00 AM - Ohad Levy**

Fixes #30 - a very basic version for now - feature requests ARE WELCOMED

**History**

**#1 - 09/25/2009 09:34 AM - Richard Francis**

anything else?

It would also be nice to see the build status of a particular server (requested pxe config, building, build complete, puppet run).

It might also be good to get this output in rss so it can be monitored externally to raise alerts.

That's partly available now, you would see a status icon which currently supports 3 modes (probably can be extended):

- Enabled for installation but hasn't done anything yet.
- Finished OS installation
- Puppet has run one or more times

On top of that you have the reports status indications

- Everything is ok - no changes
- Everything is ok - but puppet did some changes
- Some Failed / Errors
- Puppet didn't run in the last 35 minutes.

It might also be good to get this output in rss so it can be monitored externally to raise alerts.

Interesting Idea :)

---

**#3 - 10/28/2009 07:44 AM - Ohad Levy**

- Status changed from New to Ready For Testing
- % Done changed from 0 to 100

Applied in changeset `90b706580529289f7bac42b14adff45a70e1180e`.

**#4 - 10/28/2009 08:14 AM - Ohad Levy**

- Status changed from Ready For Testing to Closed
