Fixes #30240 - compat with theforeman/dns 8.x
dda99d908f38c3e752928a9a2d570280477d581c marked the module as compatible with theforeman/dns 8.x. However, 8.x was a breaking change and no longer automatically grants access to the rndc-key by default. This restores compatibility.
