## Foreman - Bug #3030

**Facter isn’t loaded, but is referenced in DB migrations etc.**

09/05/2013 04:32 PM - Dominic Cleal

### Description

The Facter library is no longer 'required' anywhere now that Puppet is no longer loaded due to [#2414](https://github.com/theforeman/foreman/issues/2414), but we still have quite a few references to it.

This causes DB migrations on a clean installation to fail:

```ruby
uninitialized constant AddOwnerToHosts::Facter/var/lib/workspace/workspace/test_develop/database/mysql/ruby/1.8.7/db/migrate/20100419151910_add_owner_to_hosts.rb:12:in `up'
```

Other uses of it:

- app/models/setting/auth.rb
- app/models/setting/provisioning.rb
- app/models/setting/general.rb
- lib/tasks/reset_permissions.rake
- db/migrate/20100628123400_add_internal_auth.rb
- db/migrate/20100419151910_add_owner_to_hosts.rb

All of these should probably just require 'facter' until we can get rid of it too.
