Revision e037f70d - 10/07/2020 05:30 PM - Ondřej Ezr

Fixes #30860 - introduce SettingPresenter (#8001)

Introduces SettingPresenter, that should keep all the information about setting. This aims to keep such information only in the code and remove them from the DB.

This only prepares the ground for future drop of this information from DB.

We should slowly move most of the logic to the SettingPresenter from Setting. Setting model should be kept only as an interface to the key/value storage. DB will only hold key/value of changed settings.

**History**

#1 - 09/16/2020 03:12 PM - The Foreman Bot
- Status changed from New to Ready For Testing
- Pull request https://github.com/theforeman/foreman/pull/8001 added
