Description

Issue:
If there is an issue with Foreman's Insights API, `insights-client --register` command will fail with really long ugly HTML error.

Running `insights-client --test-connection` we can catch the error with nice output like this:

```
Running Connection Tests...
  === Begin Upload URL Connection Test ===
  Connection failed
  === End Upload URL Connection Test: FAILURE ===

  === Begin API URL Connection Test ===
  Connection failed
  === End API URL Connection Test: FAILURE ===

Connectivity tests completed with some errors
See /var/log/insights-client/insights-client.log for more details.
```
