**Found in Releases:** 2.4.0

**Description**

- Related to Feature #30440: Simple & automatic host registration WF

**Associated revisions**

**Revision 1a144f1f - 12/01/2020 11:52 AM - Marek Hulán**

Fixes #31143 - use single quotes in registration templates

This is generally safer to avoid shell injection through macros. Also URLs can contain & in between parameters, which also causes shell side effects. This replaces all " with ' where it makes sense.
